... to source additional funding, whilst at the same time seeing what scope there is to reduce costs and get the station project moving. I want to keep up pressure on all those involved and have asked for a further progress report from all parties, in 6 months time, on the financial package for the station. As so many of us were told we would be getting a station when we bought our houses, I feel there is a moral obligation on the part of all stakeholders to deliver on that promise for the people of Wixams.
